

Order no.: 070629

## FlexxGuard railing posts

For scaffold width [mm]

### Specification

Length <b>1.13 m</b>	Diameter <b>60 mm</b>	Height <b>1.14 m</b>	Base area length <b>360 mm</b>	Base area width <b>360 mm</b>
Mounting <b>2 hook stretcher</b>	Design type <b>Mobile</b>	Material <b>Aluminium coated</b>	Colour <b>RAL 2021</b>	Weight <b>3 kg</b>
Transport dimensions <b>1100 x 725 x 50 mm, 3 kg</b>	Business division <b>MUNK Günzburger Steigtechnik</b>	Article no. <b>070629</b>	Price <b>€ 1,100.00</b>	

### Facts

- Suitable for FlexxGuard safety system
- For fixing the railing and the safety door
- 2 hook clamps make it quick and easy to attach to grating 30x30 mm
- Additional ballasting is not required when fastening to grating 30 x 30 mm

## Scope of supply

- Railing post: 1 x

## Information on sustainability criteria

---

- Corporate certification: ISO 9001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users

## Added value

---

### Modular kit system

- Individually and cost-efficiently combinable for the respective requirement
- Platform heights from 1.25 to 3.0 m
- Three different platform lengths can be selected

### Safety railing

- Railings and handrails on both sides ensure a high level of safety at work
- Fixed size or telescopic safety door

### Ascent

- Non-slip designs for secure footing
- All kinds of different materials can be selected with non-slip classes from R 9 to R 13 – suitable for the specific application purpose

## Modular walkway systems

- For a wide range of indoor applications in production, warehouses, as access to machines, as a walkway along building walls or as practical access for de-icing commercial vehicles in the winter months
- Thanks to innovative modular construction, walkway systems can be assembled conveniently, cost-effectively and yet precisely to meet individual requirements
- The platform height of the walkway systems can be individually determined between 1.25 and 3.0 metres. The desired total length is achieved by way of combining three different walkway lengths
- The modules can be easily assembled using pre-assembled modules, securely connected to one another and fastened to the underlying surface using foot brackets
- The maintenance-free modules are manufactured as a stable, corrosion-resistant aluminium construction with a supporting frame.
- Maximum load: 1.5 kN / m<sup>2</sup>, step load 150 kg, total load 300 kg
- Access to the walkway conveniently via stairs 45° with handrails on both sides and automatically closing safety door.
- The delivery from the factory is made in pre-assembled modules for quick and simple assembly in accordance with the enclosed assembly instructions

## Note

When assembling a walkway, only modules with the same platform height can be combined. Please contact us if you need different platform heights on a walkway system. This also applies if you need walkway systems for outdoor use, as they are primarily designed for indoor use (with the exception of de-icing systems).
