

Order no.: 930603

Swivel castor 125 mm with locking device

Diameter [mm]

125

Specification

Castor diameter 125 mm	Material Galvanised steel	Weight/piece 700 g	Dimension A 57 mm	Dimension B 57 mm
Dimension H 158 mm	Thickness t 32 mm	Order no. 930603		

Facts

- Pressed from sheet steel
- With two ball bearing arrangements in the slewing ring
- With "stop-fix" locking device
- Rim/wheel body made from high-quality, unbreakable polypropylene
- Tyre/tread made from high-quality thermoplastic rubber elastomer (TPE)
- Load-bearing capacity: 120 kg

Description

The swivel castor is pressed from high-quality sheet steel and fitted with two ball bearing arrangements in the slewing ring. The "stop-fix" locking device prevents the castor from inadvertently rolling away. The rim and wheel body are made from unbreakable polypropylene, the tyre from high-quality thermoplastic rubber elastomer (TPE). With a load-bearing capacity of 120 kg, it can be used in a large number of constructions.

Scope of supply

- Swivel castor: 1 x
